Subject: two more sampling teams please, a total of 4 people

Hi Mark – the field crew has requested 4 more STARTS. Two will assist Hays at the mine site, two will work in the Durango area sampling river, wells, etc.

If people fly into Durango, EPA has a preference that personnel attempt to rent vehicles from the local Jeep tour companies to help mitigate their losses from cancellations. (Of course, we can't use the companies that insist on providing their own drivers!) I can write you an e-mail providing approval for rental of Jeeps.

Please contact me sometime today and let me know if and when you can provide the additional personnel. Thanks!
